Mr. Melvin Watson
Post Office Box 894
Joliet, Illinois 60431

Gentlemen:

Your solid waste disposal facility located north off Moen Street, west of Rockdale, Illinois, was inspected on May 28, 1981, by Jeff Stofferahn, representing this Agency.

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations:

...Erosion of cover material has resulted in the exposure of refuse on the west slope of the fill. Additional final cover material should be applied to the eroded areas of the fill. Seeding the site to prevent further erosion is also recommended.

...This letter will also serve to remind you that your latest quarterly water analysis was not submitted. Sand analyses must be submitted to Land Technical Operations Section, Division of Land/Noise Pollution Control, Illinois EPA, 2200 Churchill Road, Springfield, Illinois 62706 on or before the 15th of January, April, July and October.

Within fifteen (15) days we request a reply to this letter indicating how you will be correcting the aforementioned violation(s).

Sincerely,

Kenneth P. Bechely, Northern Region Manager
Division of Land/Noise Pollution Control
Field Operations Section
